

How to find *Military Review* past issues

You can find past issues of Military Review in 3 different locations. Click on a location below to find out how to access our past issues.

1. Past Issues on CAC Products Webpage

2. CALL Archive Research Manual

3. Searching the WKB at BCKS (AKO Members Only)

Military Review Past Issues on CAC Products Webpage

The Combined Arms Center has created a single page where all [CAC Products](#) can be found. The [CAC Products](#) page contains many of our past issues. The past issues available on the [CAC Products](#) page are in PDF format. When clicking on any of the links you will begin to download a complete copy of that past issue. Please be patient as file size varies from 5MB to 30MB and it can take time to download an entire issue. Here you will find complete copies of past issues for the Arabic, English, Portuguese and Spanish editions. If there is an article or an edition you are searching for but cannot find please [contact us](#).

You will find the Military Review repository towards the bottom of the CAC Products page. A highlighted turquoise bar separates the past issues of different languages, as shown below:

CAC Products Page

The screenshot shows a web browser window displaying the "US Army Combined Arms Center and Fort Leavenworth Public Home Page". The page features a section titled "Military Review" with a description of the journal and a link to access materials. Below this, there are four tables of past issues, each for a different language edition: Arabic, Portuguese, Spanish, and English. Each table lists the year and the specific issue(s) available for download. Blue arrows point from labels on the left to the corresponding tables.

Arabic Past Issues

Military Review Arabic Editions (Complete Copies)

CALL Archive Research Manual

How to Research *Military Review* articles in the CALL Public Archives

While a central repository of all CAC Products has past issues of *Military Review*, the Center for Army Lessons Learned (CALL) Public Archives is currently the only location to be able to research, browse and search individual articles published in the English and Spanish Editions. We are hopeful that one day the Portuguese and Arabic editions will also be made available for research purposes as well. The CALL Public Archives is currently the most complete repository of all digital copies of the English Edition. On the following pages is a detailed description of how to search for articles stored at CALL.

To access the CALL Public Archives:

Step 1: Click on the [Past Issues \(CALL Archives\)](#) link on our homepage. This link will take to the CALL Public Archives.

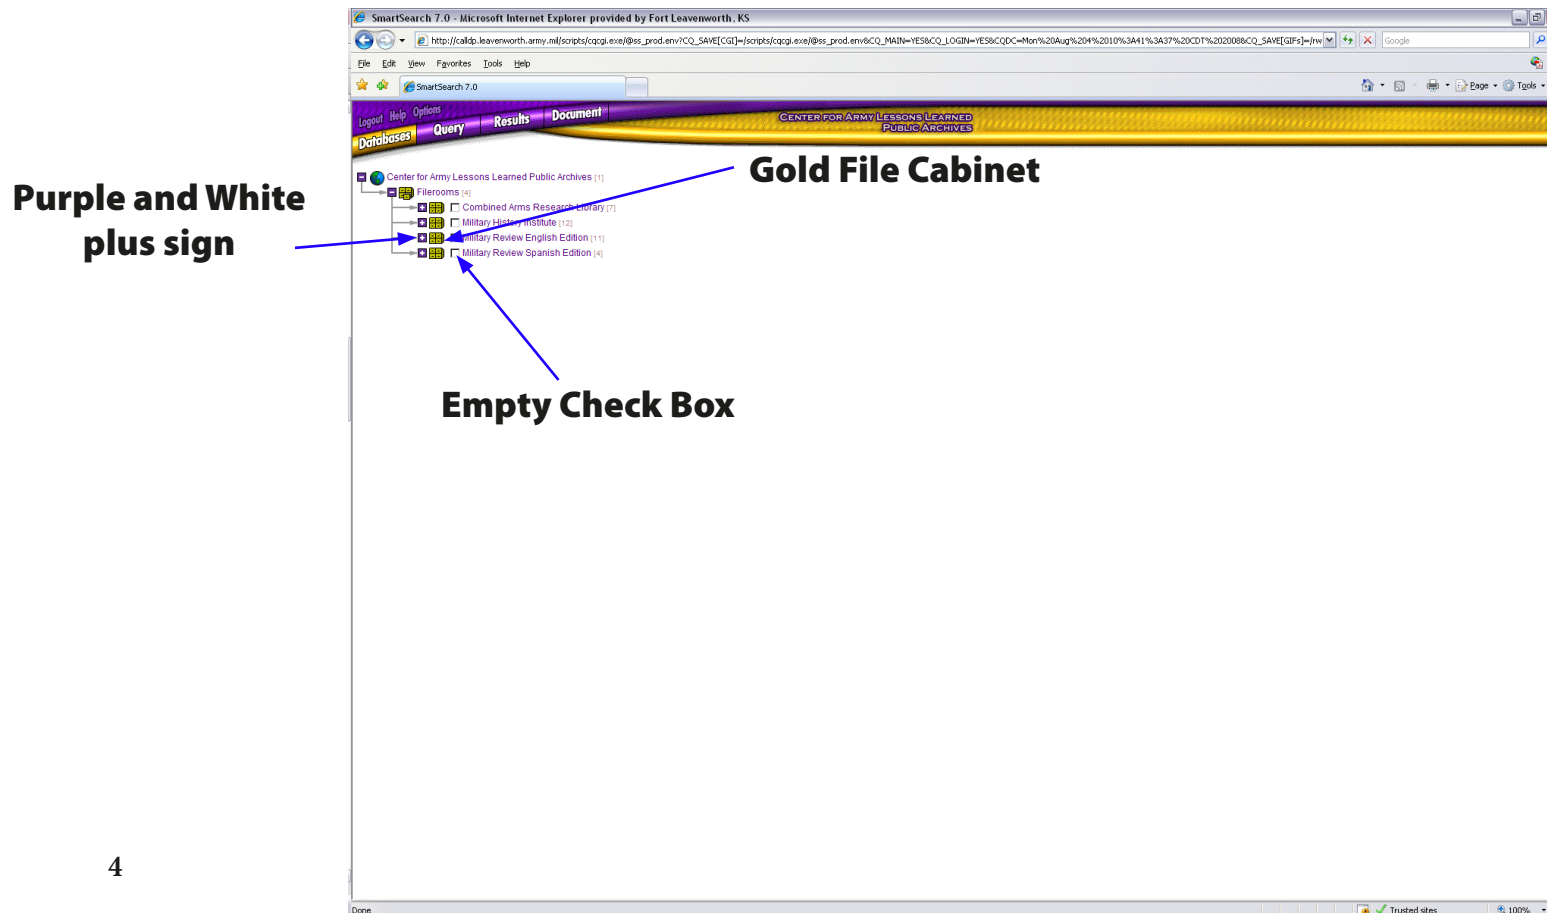

CALL Archive Research Manual

You have now entered the CALL Public Archives

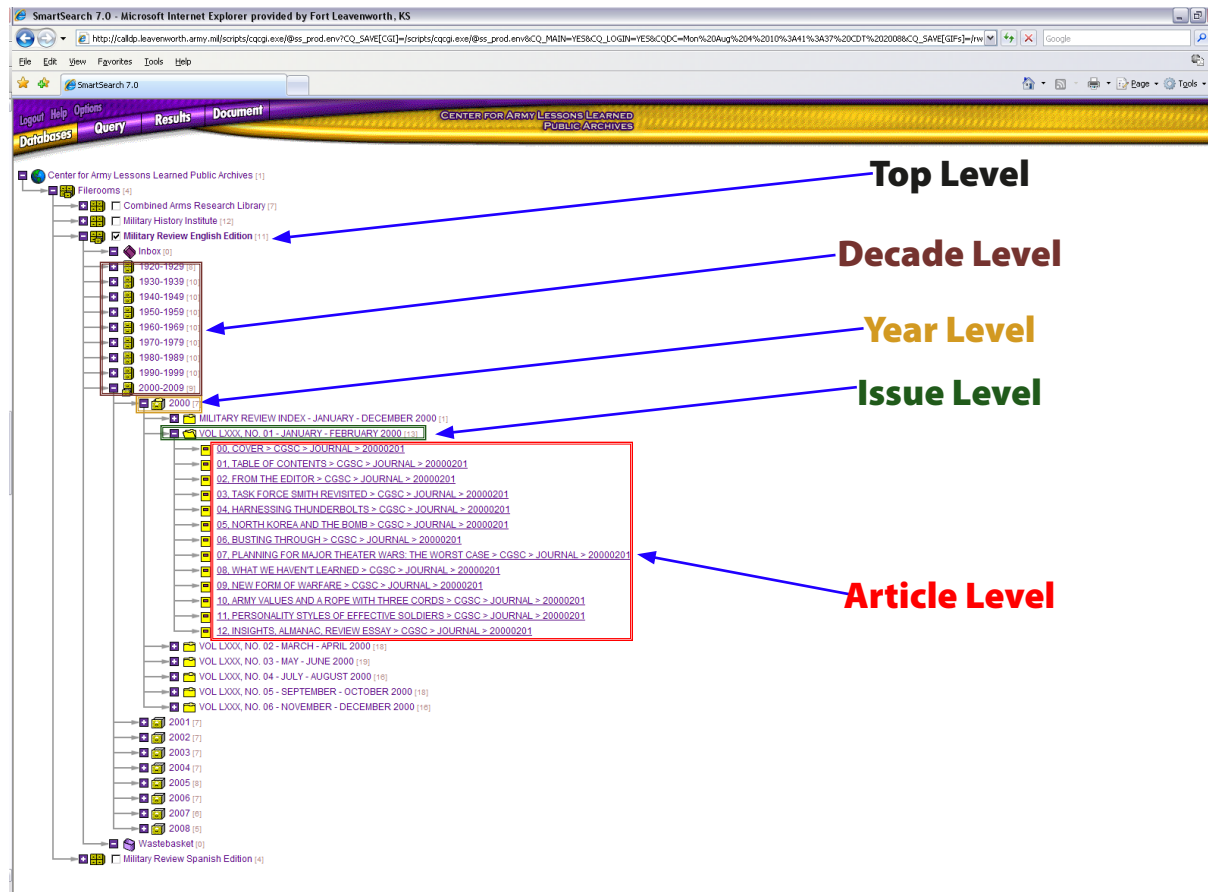

You will notice that the Archive is setup in a file cabinet structure. The Military Review English Edition and Spanish Edition are in separate gold file cabinets as shown below. By clicking on the purple and white plus sign next to the file cabinet, the file cabinet drawers will open and will reveal file cabinet drawers organized by decade. (See next page)

Step 2: Be sure to click the empty check box next to the publication that you desire to search. If you do not click the empty check box next to the edition you will not be able to do keyword searches using the Query button.

CALL Archive Research Manual

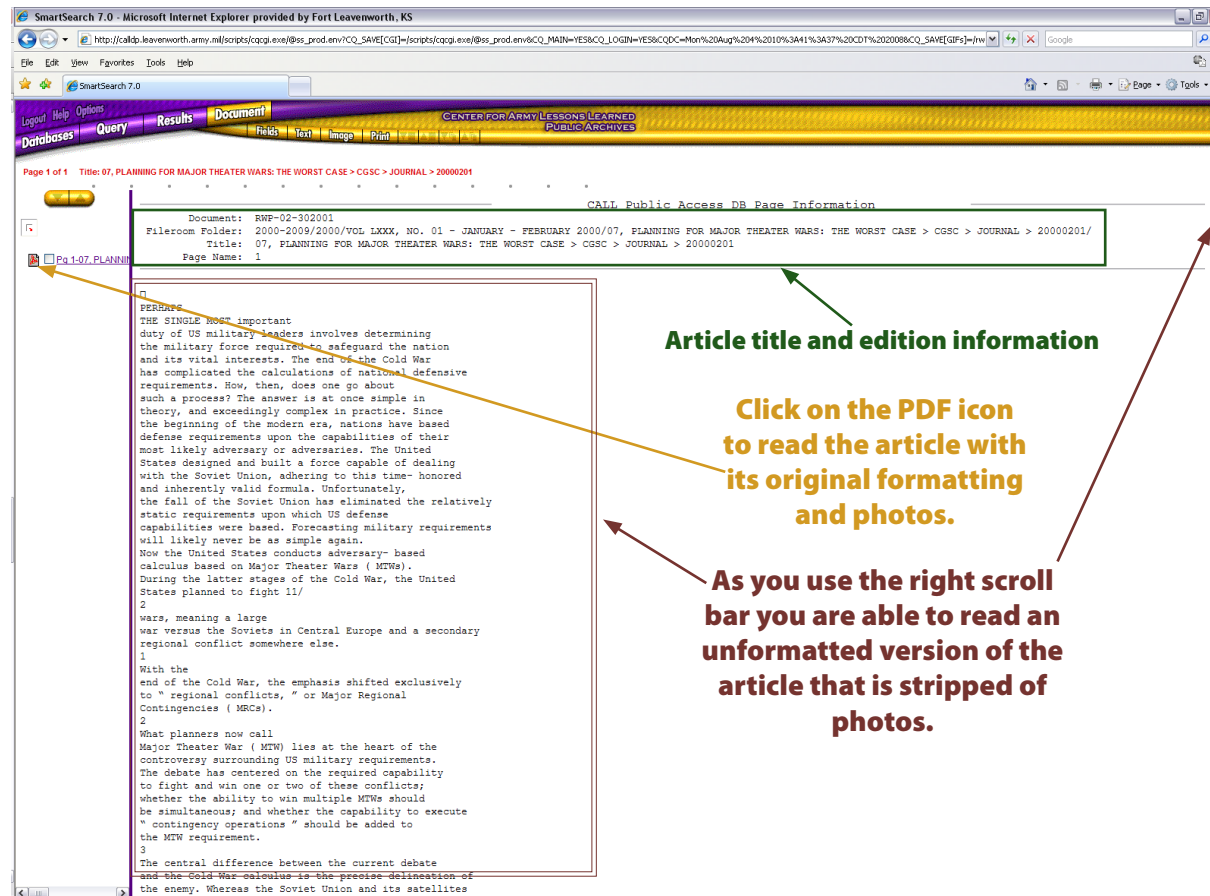

Step 3: At this point you can continue to browse for articles by opening the file drawers. As you continue to click on the purple and white plus sign you will move deeper and deeper into the file cabinet until you reach the article level. By clicking on article you will get the following screen shot:

CALL Archive Research Manual

Article level Screen Shot

Step 4: By clicking on an article you will arrive at a screen like the one pictured below. If you desire to read the article with its original formatting, photos and layout you must click on the PDF icon at the far left of the screen. The PDF document will then download, otherwise you can read the stripped html version by scrolling down the page.

CALL Archive Research Manual

Performing keyword searches

Step 5: In order to perform keyword searches be sure to click the empty check box next to the publication that you desire to search. If you do not click the empty check box next to the edition you will not be able to do keyword searches using the Query button. Click on the query button in the banner at the top of the page. Type in a keyword or words and click "SEARCH" button.

The screenshot shows the SmartSearch 7.0 web interface. At the top, there is a navigation bar with tabs for 'Databases', 'Query', 'Results', and 'Document'. Below this, a banner reads 'CENTER FOR ARMY LESSONS LEARNED PUBLIC ARCHIVES'. The main content area shows a search form with a 'Search For:' input field, a 'Search' button, and radio buttons for 'Concept', 'Pattern', and 'Boolean'. A dropdown menu for 'Style' is set to 'Average'. The 'Libraries' section shows 'Military Review English Edition' with an empty checkbox next to it. Annotations with blue arrows point to the search input field, the 'Search' button, and the checkbox.

Enter keyword search terms here

SEARCH button

Query Button

This is the filecabinet that you have chosen to search. If you forgot to put a checkmark in the empty checkbox on the previous screen then this will display none selected. In this example we are searching the Military Review English Edition.

(Document 1 of 500) CAC RESEARCH AND PUBLICATION INDEX, JANUARY - DECEMBER 2005 > CAC > JOURNAL > 20050101

Click on a document in the results list to display it here.

Click on the file cabinet icon to take you to the article level screen shot as seen in step 4.

Click on hyperlinked title to display an unformatted version of the article that is stripped of photos.

Searching the WKB at BCKS (AKO Members Only)

Battle Command Knowledge System (BCKS) has accumulated a repository of Military Review articles that are searchable using the Warrior Knowledge Base (WKB) Search Engine.

To access the WKB Search Engine follow these steps:

Step 1: Go to the BCKS website on AKO at <https://www.us.army.mil/suite/page/136429>.

Step 2: Enter the keywords that you are searching for in the WKB search Engine on the screen. You will then receive a list of results. You will also notice that below the Search button is a “WKB Search Tutorial” giving more in depth explanation on how to perform simple and advanced searches.

For best results we recommend using the advanced search option and in the Type category selecting the “Articles, Books, Briefings, Magazines & Paper” option. Additionally, you might want to add “Military Review” as one of your keyword terms in the search.
